Troubleshoot - Piston Motor

Customer complaint:
troubleshoot low power when steering

Resultant damage:
to low rpm for hydraulic function

Cause of failure:
throttle not working

Repair process comments:
operated the machine and got all fluids to operating temp and noticed that the hand throttle did not work and the foot throttle was stuck. upon further trouble shooting the throttle was adjusted and pre set to around 1900 RPM. there is a small delay in the stick but is withing the CAT spec of 1.5 seconds. repair process is in segment four.
